

# LIGHTING PLOT

DIGITALCINEMA@EDINBORO

Plots should include the relative placement of subject, camera(s), and lighting instruments. For each instrument, indicate:

1. type (fresnel, ellipsoidal, etc.)
2. height (from floor)
3. distance (from subject)
4. lamp wattage
5. dimmer settings
6. foil, barn doors, gobos, and cookies
7. diffusion, gels
8. intensity & ratios (ambient reading measured at subject)
