Squatch

A

What would you do if you were faced with a Megalo Squatch?

B

A fuckin' what?

A

A Megalo Squatch.

B

What are you talking about?

A

Ok, so a Megalo Squatch is like a Sasquatch, but it's 3 stories taller and rips you apart for fun.

B

So what would I do if a Monkey-Saurus-Rex came over and used me like a Goddamn human party popper?

A

I didn't say he'd do that.

B

Then what's the question here?

A

Just what would you do in this situation?

B

I don't know! You put me with a giant fucking Bigfoot and no other context, I'd probably go mad and kill myself!

A

But what if it gave you a bouquet of dandelions and a little kiss on the cheek?

B

Oh, well that changes everything. What if he also had a Yeti buddy that

was the size of a red wood tree?

A

Well, that's just unrealistic.
